

Development & Modernization of Vegetable Waste Briquetting Activities

Beatrice Zaharescu - RO NRN

M3/6A – Project funded through the Local Development Strategy
of the Delta Dunarii Local Action Group

DIMA ANCUȚA P.F.A. · Murighiol, Tulcea County, ROMANIA

General Project Information

Funding Program

EAFRD/EURI – European Agricultural Fund for Rural Development

Sub-measure

19.2 – Support for implementation of Local Development Strategies

Project Title

M3/6A – Development and Modernization of Vegetable Waste Briquetting

Programming Period

2014–2020

Beneficiary

DIMA ANCUȚA P.F.A.

Location

Murighiol Commune, Tulcea County

Intervention Field

DI 6A – Article 19, letter a (EU Reg. No. 1305/2013)

Project Description

The project aims to develop and modernize vegetable waste briquetting activities through the acquisition of new machinery, delivering three key benefits:

Portfolio Diversification

Use of alternative raw materials, expanding the available product range significantly.

Doubled Capacity

Plant production capacity increased to double the existing operational level.

Cost Efficiency

Significant reduction in production costs through modern, high-performance machinery.

Project Objectives

SO 1

Acquisition of new machinery

SO 2

Doubling production capacity and diversifying raw materials used

SO 3

Streamlining production costs

SO 4

Creating one new job position

Financial & Implementation Details

€129,969

Non-reimbursable
Funding

€14,441

Private
Contribution

14 months

Implementation
Period

Sarinasuf Village, Murighiol Commune, Tulcea County

Funded through the Local Development Strategy of the Delta Dunarii LAG

Results & Lessons Learned

Results

Expanded product portfolio through the capacity to utilize diverse types of raw materials. One new job position created within the local community.

Impact

The non-reimbursable financial support granted through the Delta Dunarii LAG Local Development Strategy was essential for rural development and local economic growth.

Recommendations

Project implementation proved the efficiency of the LEADER approach and its positive impact on the development of rural communities across the region.

A Success Story for Rural Communities

The LEADER approach demonstrates that European funding can transform rural entrepreneurs and the communities they call home.
